

# PUBLIC NOTICE

## TOWN OF KINGSTON

### Mosquito Control

The Mosquito Control program begins the week of April 9, 2018 in the Town of Kingston. Crews from Dragon Mosquito Control will be checking swamps, marshes, woodland pools, ditches, storm drains and other shallow, stagnant water for mosquito larvae. When mosquitoes are found, the following insecticides may be used:

VectoBac (Bacillus thuringiensis israelensis)	BVA 2 Mosquito Larvicide Oil (mineral oil)
Altosid (methoprene)	Duplex-G (Bacillus thuringiensis israelensis, methoprene)
AquaBac 200G (Bacillus thuringiensis israelensis)	CocoBear MLO (mineral oil)
Fourstar Bti CRG (Bacillus thuringiensis israelensis)	

If Eastern Equine Encephalitis or West Nile Virus is found in or near Kingston, then emergency spraying may be conducted using one or more of the following products:

Cross Check Plus (bifenthrin)	Permanone (permethrin)
Duet (sumithrin & prallethrin)	Zenivex (etofenprox)
Essentria IC <sup>3</sup> (rosemary oil, geraniol, peppermint oil)	

Emergency spray treatments may be conducted at the following locations:

Bakie Elementary School	Town Common
Former High School & Chase Field	Sanborn Regional High School
Magnusson Field	Comeau Field & Fair Grounds

It is not possible to predict if emergency spraying will be necessary. The spray schedule is based upon mosquito surveillance data, disease test results and weather conditions. Further communication will be given if emergency spraying is going to take place.

Residents who do not want their wetlands treated may use our No-Spray Registry online at [www.dragonmosquito.com/no-spray-registry](http://www.dragonmosquito.com/no-spray-registry) or write to Dragon Mosquito Control, P.O. Box 46, Stratham, NH 03885. Be sure to include your name, physical address, phone number, a description of your house and acreage.
