## INTRODUCTION

## INTRODUCTION

NESDEC entered into an agreement with the Sanborn School District to conduct a PK-12 School Facilities Study. The goal of the project was to provide a basis for decision-making regarding future grade level re-configurations, building renovations and/or construction and alternative facility use.

Good long-range planning requires a specific mindset, temporarily casting aside more immediate concerns in order to think long-range. However, aspects of this report can be useful in making near-term decisions in two respects: 1) providing a better understanding of the long-term future of each building, thereby suggesting the assignment of grade levels to buildings in a manner that is consistent with the District's long-term plan; and 2) as a guide to budget planning, so funds can be earmarked for purposes that are consistent with intended long-range use of each facility.

## INTRODUCTION (Cont.)

## SCOPE

## Enrollment Trend Analysis

The NESDEC Team analyzed District and municipal records and data provided by Town Officials, local and regional real estate sources, HUD, the State of New Hampshire and the U.S. Census Bureau.

## Instructional Program Review and Facility Best Use Analysis

The study also included an analysis of present and planned school programs and the facilities needed to provide these programs. Members of the NESDEC Study Team visited the Sanborn High School, Sanborn Middle School, Memorial Elementary School, and the Bakie Elementary School while in session and met with administrators in each of the schools. School documents, including goals and curriculum and program information, were studied.

Although the study did not include a capital asset assessment, the NESDEC Team did review pertinent facility maintenance and capital improvement needs information that was provided by the District.

## OPTIONS

Using information gained from its analysis of the enrollment projection; coupled with its instructional programming/facility capacity analysis, NESDEC analyzed potential alternatives for the District to review as it moves forward in the development of a Long-Range Facility Plan.

The alternatives that the NESDEC Team is presenting include a bulleted outline description of each option as well as a listing of advantages and challenges. The options are designed to serve as a catalyst for further analysis and discussion. Thus, this document should be considered not as an end-product, but rather as a beginning point for future planning.

## DEMOGRAPHIC ANALYSIS

## DEMOGRAPHIC ANALYSIS

## Births - Source: State of New Hampshire, Division of Public Health

- Between 2002 and 2006, during the economic boom, births among current Sanborn RSD communities averaged 122 per year
- From 2007 through 2012, during the economic and housing downturn, births among Sanborn RSD communities averaged 104 per year
- From 2013-2016, births among Sanborn RSD communities have averaged 85 per year. The Millennial generation has married later and had a significantly lower number of births per couple than earlier generations

## HUD Permit Information

- During the housing boom from 2001-2007, HUD single family permits for current Sanborn communities averaged 59 per year
- During the housing downturn from 2008-2012, HUD single family permits for current Sanborn communities averaged 37 per year
- From 2013-2017, HUD single family permits for current Sanborn communities averaged 66 per year

## DEMOGRAPHIC ANALYSIS (Cont.)

## Planning Department Information

Information provided by the Kingston, Newton and Fremont Planning Departments regarding new residential development indicates the following;

## Kingston

- Single Family Residences
- Under construction - 1 five lot sub-division
- Approved awaiting construction - 1 two lot sub-division
- Under review - 1 six lot continuation
- Condo Units
- Under construction - over 55-1 six lot continuation
- Possibly moving forward - over 55 project - no new information
- Apartments - none approved or in process

## Newton

No single family, condominium or apartment projects under construction, approved but not constructed, or in the approval pipeline

## Fremont

- Single Family Residences
- Single family construction typically is between 6-12 units per year
- 2 sub-divisions totaling 10 units are under construction
- Condo Units
- A 20 lot condo development has been approved

Factors accelerating or impeding future development
No major changes were listed which would accelerate or impede residential development

## DEMOGRAPHIC ANALYSIS (Cont.)

## Realtor Input

NESDEC received the following information concerning the current Kingston, Newton and Fremont real estate market:

- During the past year, Kingston, Newton and Fremont have all experienced a significant uptick in single family existing home sales vs. three or four years ago
- In all three communities, days on the market have diminished
- If a home is properly priced and in good condition, there may be multiple offers within 2 weeks
- Inventory is low
- Homes priced below $\$ 300,000$ are selling most quickly
- However, it is reported that a comparatively low number of recent single family home purchases involve families with children
- Many of the buyers are over aged 50
- Couples in their late 40's and early 50's are reported to be moving to the Sanborn District towns from the Portsmouth and Manchester areas where tech businesses are growing in number, employment opportunities are rising, and home prices are much more expensive than in the Sanborn regional area. Many of these older couples do not have schoolaged children.
- The Sanborn Regional area has also become popular with Boomers from the Manchester, Portsmouth and northern Massachusetts areas. The Boomers are reported to be looking to sell their existing residences and purchase a significantly less expensive home in the Sanborn Regional area. This enables them to set aside in savings much of their home equity. Many express a desire to take advantage of their home equity before the economy experiences a downturn.
- As a result of the above listed factors, the Millennials, many of whom are just beginning to have children and who are seeking starter homes in the Sanborn Regional area, are being out-bid when they issue a single-family purchase offer.
- Data for Fremont, Kingston and Newton, gained from the U.S. Census Bureau American Community Surveys indicates that between 2012 and 2016 the percentage of under age 34 homeowners and renters within the three communities declined from $9.97 \%$ to $4.37 \%$. During the same time period, the percentage of 65 and over homeowners and renters increased from $7.97 \%$ to $9.93 \%$.

## CAPACITY ANALYSIS

## DEFINING "CAPACITY"

Architects depend heavily on square footage;
NESDEC also counts rooms... using the perspective of a school principal who is creating a schedule for the building

- Current Operating Capacity (C.O.C.)
- Class size (PK = 17; $\mathrm{K}=18$; Grades $1-3=20$, Grades $4-12=25$ )
- Current building use including deficiencies and portable classrooms
- Planned Operating Capacity (P.O.C.)
for a 21 $^{\text {st }}$ Century Educational Program
- For future planning/construction purposes
- Corrects deficiencies; keeps current programs
- Provides appropriate core and specialized facilities
- Parity/equity among all buildings
- Eliminates temporary facilities (e.g., portables)
- Meets current code requirements

NESDEC advises that for long-term planning, districts maintain a minimum of a $10 \%$ capacity cushion to accommodate future growth

## CURRENT AND PLANNED OPERATING CAPACITY: BAKIE ELEMENTARY SCHOOL

Current Operating Capacity (COC)

2 Half-Day Grade PK x 17= 34
3 Grade K x $18=54$
11 Grades $1-3 \times 20=220$
6 Grades $4-5 \times 25=150$

Total COC: 458

Planned Operating Capacity (POC)

2 Half-Day Grade PK x 17=34
3 Grade K x $18=54$
11 Grades $1-3 \times 20=220$
6 Grades $4-5 \times 25=150$

Total POC: 458

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Instructional Spaces:

- 21 interchangeable classrooms
- 1 Art room, with sink and adequate storage, separate space for kiln
- 1 Music room with adequate storage, although student instruments are stored in the hallway
- 1 technology "maker-space" room, used by classroom educators

## Core Facilities:

- 1 Cafeteria/Auditorium/Gymnasium - full kitchen - meals prepared on site, 3 lunch waves, one serving line, serves 144 students, curtain between cafeteria and gym opens for more seating, $\sim 412$, as needed; stage is not HC accessible
- 1 Library/Media Center, educator book room storage at the back of the center and an enclosed computer lab
- 1 Gymnasium (see above) with 2 teaching stations, accommodates two classes, shared space with the cafeteria; health classes taught by PE educators in separate classroom

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Administrative Space:

- 1 Principal's office, adequate space
- 1 Assistant Principal's office, space is adequate
- 2 Administrative Assistant's office, adequate space
- 1 Conference room, adequate space sometimes cramped when hosting larger meetings
- Full-time Nurse's office contains 2 day beds, one with a curtain, no private exam room, restroom HC
- 1 teacher lunchroom, 1 teacher work room

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Support Staff:

- 1 full-time Guidance Counselor, has office space and shares classroom space with Health Educator, space is adequate
- 1 contracted Psychologist, space is shared with Speech and PK coordinator, space is adequate
- 1 PK Coordinator, space is adequate
- 1 full-time Speech, space is adequate
- 1 part-time Speech, space is shared with case manager and is inadequate
- 1 contracted OT/PT, has adequate space
- 3 resource rooms, space is adequate
- 1 full-time Mathematics enrichment educator, 1 Reading Specialist, space is adequate
- 2 Title I Math/ELA para-educators, shared space is adequate
- 1 Case Manager, space is adequate
- 1 half-time ELL educator, space is shared and not adequate

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Instructional/Administrative Technology:

- 1:1 for every grade, K-2 with iPads, 3-5 with Chromebooks
- 2 computer carts, with 20-25 devices each
- Classrooms have interactive projection devices
- Library has one desktop and a computer lab (20 desktops) Electronic texts and software are used K-5
- Wi-Fi access is reliable
- Special Ed plans, health records, grading and attendance computerized

## ADA/Handicapped Access:

- Curb cuts and handicapped parking spaces are available
- Main restrooms are HC, but classroom restrooms are not HC
- Lever door handles and "closed-fist" crash bars are evident
- Route of travel in the building does require stairs, there is a ramp, no elevator or lift; note: the main entrance requires a step up, but there is another entrance that is HC

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Major Systems \& Maintenance:

- Plumbing is reported as satisfactory
- Electrical system is reported as satisfactory, however, the length of the electrical line from the street creates a potential for failure during a storm
- HVAC is reported as needs improvement, as the third floor rooms can get hot in the warmer months
- The windows, doors, flooring and walls are reported as satisfactory
- The roof is reported as satisfactory

## BAKIE ELEMENTARY SCHOOL (Cont.)

## Site Information:

- Parking during the school day is reported as satisfactory
- Event parking reported as needs improvement, when special events occur, the administration works with the police department to facilitate parking off-site
- Field/play space noted as satisfactory
- Areas for drop-off and pick-up reported as needs improvement, preschool pickup and drop-off at the main entrances causes traffic concerns
- Proximity to traffic noted as needs improvement for preschool drop-off and pickup

## Storage:

- Storage for classroom supplies reported as adequate, although the PE storage area houses tables/chairs and the library houses the book room for classes
- Storage for custodial supplies is adequate
- Storage for administrative supplies is adequate; administrative records storage is inadequate
- Storage for kitchen supplies is adequate

7 Grades $1-3 \times 20=140$
1 Grades $4-5 \times 25=25$

## Total POC: 253

5 classrooms taken offline, 4 portable classrooms and one classroom for storage

## MEMORIAL ELEMENTARY SCHOOL (Cont.)

## Instructional Spaces:

- 17 interchangeable classrooms
- 1 Art room, with sink and adequate storage
- 1 Music room with adequate storage, located in portable classroom
- 1 Band room with adequate storage, located in portable classroom
- 1 STEAM room with adequate storage

## Core Facilities:

- Cafetorium/Gymnasium - full kitchen - meals prepared on site, 6 lunch waves over 3 lunch sessions, one serving line, serving 50 students, seating for 255 students; stage area is used for storage
- Library/Media Center with adequate storage
- Gym with 1 teaching station and 2 full-time PE educators, seats 50 students (shared space with cafetorium)

## MEMORIAL ELEMENTARY SCHOOL (Cont.)

## Administrative Space:

- 1 Principal's office, 1 Assistant Principal's office, space is adequate
- 2 Administrative Assistant's offices, space is adequate
- 1 Conference room, located in Assistant Principal's office, adequate space
- 1 full-time Nurse, 1 day bed, 1 shower, restroom HC, limited storage, no private exam space
- 1 teacher lunchroom, 2 teacher work rooms, space is adequate

## Support Staff:

- 1 full-time Guidance Counselor, space is adequate
- 1 contracted Psychologist, space is shared with Guidance Counselor, and an additional small testing space, adequate
- 1 contracted Speech, space is adequate
- 1 OT, has adequate space, shared with contracted PT, space is adequate
- 2 resource rooms, space is adequate
- 1 ESL educator, space is in portable classroom, adequate
- 1 Mathematics coordinator, space is adequate
- 2 Title I math/reading educators, shared space is adequate

## MEMORIAL ELEMENTARY SCHOOL (Cont.)

## Instructional/Administrative Technology:

- 1:1 for every grade, K-2 with iPads, 3-5 with Chromebooks
- Classrooms have interactive projection devices
- Library has one desktop computer for book-checkout
- Electronic texts and software are used K-5
- Wi-Fi access is reliable
- Special Ed plans, health records, grading and attendance computerized

## ADA/Handicapped Access:

- Curb cuts and handicapped parking spaces are available
- Main restrooms are HC accessible; classroom restrooms are not HC
- Lever door handles and "closed-fist" crash bars are evident
- Route of travel in the building does require stairs, there is a ramp, no elevator or lift available

## MEMORIAL ELEMENTARY SCHOOL (Cont.)

## Major Systems \& Maintenance:

- Plumbing and electrical systems are reported as satisfactory
- HVAC is reported as satisfactory
- The windows are reported as needs improvement, older windows throughout and some hardware needs replacement
- The doors are reported to be in need of improvement
- The roof has some leakage with some tiles needing replacement, reported as needs improvement
- The walls are reported as satisfactory
- Flooring is reported as needs improvement, tiles are lifting in the hallways

## MEMORIAL ELEMENTARY SCHOOL (Cont.)

## Site Information:

- Parking reported as needs immediate attention, not adequate for holding daytime activities, shared entrance with the middle school
- Event parking reported as needs immediate attention, as evening events can result in parking on both sides of the access roads
- Field/play space noted as satisfactory
- Areas for drop-off and pick-up reported needs immediate attention as there is not enough space for cars during this time, back-up on main road, bus pick-up in front and on side
- Proximity to traffic noted as satisfactory

## Storage:

- Storage for classroom supplies reported as inadequate, only storage is in classrooms
- Storage for custodial supplies is reported as inadequate, use of supply closet
- Storage for administrative supplies/records is inadequate
- Storage for kitchen supplies is adequate

## SANBORN MIDDLE SCHOOL

## Instructional Spaces:

- 15 full-sized classrooms used for English, Math, Social Studies, and Foreign Language instruction
- 4 Science classrooms
- 1 Science Lab - shared
- 1 Art room - sinks, no kiln, storage inadequate
- 2 Music rooms - Band, Chorus and General Music

## Core Facilities:

- 1 Cafeteria/Gym
- Cafeteria capacity 130 , warming kitchen, 3 lunch waves
- Gym - 2 teaching stations, divider, bleachers - relatively new, seating capacity bleachers 609 - not HC, locker rooms - not functioning
- 1 Wellness space
- No Auditorium - performances at high school
- Library/Media Center - accommodates 1 class, 24 computers, storage not adequate

## SANBORN MIDDLE SCHOOL (Cont.)

## Administrative Space:

- 1 Principal and 1 Assistant Principal offices - adequate
- 2 Administrative Assistant work-stations - adequate
- 2 Conference spaces - 1 in rear of Special Education area - scheduling sometimes tight
- Nurse's station - no private exam area, 1 rest room - no HC, 2 day beds
- 1 Teacher workspace - work area - lounge, adequate

## Support Staff:

- 2 Guidance offices - adequate
- . 5 Social Worker uses conference space or other available space
- 1 Psychologist - adequate
- OT/PT - no designated space, use Speech/Language or Special Ed area
- 1 Speech and Language space - viewed as adequate
- 1 ELL space, adequate - available but not currently in use
- 1 Self-Contained Special Education classroom - viewed as adequate
- 1 Special Education Resource room - pull-out
- 1 Reading support room - pull-out
- 1 Behavior Center - Quiet space

## SANBORN MIDDLE SCHOOL (Cont.)

Instructional/Administrative Technology:

- 1 Computer Lab - Tech Ed Instruction
- Computers per classroom - 24
- Electronic texts - 8
- Smart Boards or similar devices - in classrooms
- Special Ed plans, grading and attendance are done electronically
- Wireless accessibility throughout - viewed as adequate

ADA/Handicapped Access:

- ADA compliant regarding Parking/curb cuts
- Toilets - needs improvement
- Levered door handles, and "closed fist" crash bars - adequate
- Route of travel not requiring stairs - adequate

## SANBORN MIDDLE SCHOOL (Cont.)

## Major Systems \& Maintenance:

- Plumbing is viewed as satisfactory; some is the original and there are some leaks
- HVAC - classrooms are very warm in late Spring and early Fall
- The electrical system experiences some overloads
- The windows are the originals - single-paned, reported to need immediate attention
- Doors are viewed as satisfactory - exterior doors have recently been upgraded
- The roof is reported to be in need of improvement in the area of the modulars
- The flooring is reported to be satisfactory
- Walls are viewed as structurally sound

## SANBORN MIDDLE SCHOOL (Cont.)

## Site Information:

- School day parking is reported as satisfactory
- Event parking is viewed as inadequate
- Field and playground space is viewed as satisfactory
- Areas for pick-up and drop-off are reported to be tight, especially in the PM
- Traffic is reported to be congested at the beginning and end of the school day - one access road

## Storage

- Storage for classroom, administrative, custodial and kitchen supplies is viewed as in need of improvement

- 1 Cafeteria - capacity per lunch wave 350, full kitchen, 2 lunch waves, 2 serving lines plus ala carte
- 1 Auditorium - seats 575, HC accessible seating, stage HC accessible, lighting and sound viewed as in need of improvement
- 2 Gyms (1 Mini no bleachers) - 3 teaching stations plus fitness room bleachers capacity 1,200-2 locker rooms and 2 team rooms
- 1 Library Media Center - seats 2 classes - office

## Administrative Space:

- 3 Principal/Assistant Principal offices viewed as adequate
- 5 Administrative Assistant workstations - 4 Main office, 1 Guidance - viewed as adequate
- 2 Conference spaces - viewed as adequate
- 1 Nurse's station - office/reception area, private exam room, 4 day beds, 1 restroom, HC accessible
- 2 Teacher work spaces plus lounge - viewed as adequate

## SANBORN HIGH SCHOOL (Cont.)

## Sanborn SAU 17 Offices:

- 7 designated spaces on 2nd floor of high school
- 4 Central Office spaces are located near the Guidance offices, and 3 additional designated Central Office spaces are located in the Math corridor

## Instructional/Administrative Technology:

- 3 Computer Labs
- Computers per classroom - 1:1
- Chrome Books or similar devices on carts - yes
- LCD projectors - every teacher
- Smart Boards or similar devices - yes
- Electronic texts - yes
- Special Ed plans, health records, grading and attendance are done electronically
- Wireless accessibility - throughout building - yes
- Parent portal is available

## SANBORN HIGH SCHOOL (Cont.)

## ADA/Handicapped Access:

- Parking/curb cuts - satisfactory
- Levered door handles and "closed fist" crash bars - yes
- ADA Toilets - yes
- Route of travel within the building not requiring stairs - yes
- Elevator - yes

## Major Systems \& Maintenance:

- The plumbing, HVAC and electrical systems are reported to be satisfactory
- Windows and doors are reported to be energy efficient
- The roof is reported to be satisfactory
- The walls and flooring are reported to be satisfactory

## SANBORN HIGH SCHOOL (Cont.)

## Site Information:

- School-day parking and event parking are reported to be satisfactory
- Field space is viewed as satisfactory
- Areas for pick-up and drop-off are reported to be satisfactory
- Proximity to traffic is reported to be satisfactory - a Resource Officer directs traffic at the start and end of school

## Storage:

- Storage for administrative, custodial and kitchen supplies is viewed as satisfactory
- Storage space for classroom supplies is viewed as inadequate

## OPTIONS

## OPTIONS NOT BROUGHT FORWARD

NESDEC reviewed multiple options. Some potential options were not brought forward by the Team because they did not provide sufficient capacity to accommodate projected enrollments.

## OPTIONS NOT BROUGHT FORWARD

## Option NA1

Description: Reconfigure elementary grade levels, consolidating amongst two buildings in grade level spans

## Grade Level Alignment

- Grades PK-2 at Memorial Elementary School
- Grades 3-5 at Bakie Elementary School
- Grades 6-8 at Sanborn Middle School
- Grades 9-12 at Sanborn High School

This option is not viable due to insufficient capacity at Memorial Elementary School
Grades PK-2 at Memorial Elementary School

## OPTIONS

Using information gained from its analysis of the enrollment projections, coupled with its instructional programming/facility capacity analysis, NESDEC has analyzed potential alternatives for the District to review as it moves forward in the development of a Long-Range Facility Plan.

The alternatives that the NESDEC Team is presenting include a bulleted outline description of each option as well as a listing of advantages and challenges. The options are designed to serve as a catalyst for further analysis and discussion. Thus, this document should be considered not as an end-product, but rather as a beginning point for future planning.

## OPTION I (Cont’d)

## Option IA (Cont'd)

## Advantages:

- There will be sufficient capacity to accommodate grade level instruction at Bakie Elementary School
- Grade span configuration affords facilitation of collaboration, coordination, and communication amongst grade level educators
- With this option's grade level alignment, the Middle School and the High School have sufficient capacity to accommodate enrollment from 2019-2028

## Challenges:

- Through SY '21, there is insufficient capacity to accommodate grade level instruction at Memorial, allowing for the $10 \%$ POC cushion
- Need to realign school boundaries
- Increased travel time for some parents and students
- Expanded school bussing for elementary students
- Increased student transitions from three to four

## OPTION 1 (Cont'd)

## Option IB

Description: Reconfigure elementary grade levels, consolidating amongst two buildings in grade level spans

## Grade Level Alignment

- Grades PK-1 at Memorial Elementary School
- Grades 2-5 at Bakie Elementary School
- Grades 6-8 at Sanborn Middle School
- Grades 9-12 at Sanborn High School

Grades PK-1 at Memorial Elementary School

## OPTION I (Cont’d)

## Option IB (Cont'd)

## Advantages:

- There will be sufficient capacity to accommodate grade level instruction at each elementary school
- With this option's grade level alignment, the Middle School and the High School have sufficient capacity to accommodate enrollment from 2019-2028
- Grade span configuration affords facilitation of collaboration, coordination, and communication amongst grade level educators

## Challenges:

- Need to realign school boundaries
- Increased travel time for some parents and students
- Expanded school bussing for elementary students
- Increased student school transitions from three to four

## OPTION II

## Option II

Description: Close Memorial Elementary School and reassign PK-5 students to Bakie Elementary School, adding on to accommodate increased enrollment

- Assign PK-5 to Bakie Elementary School, adding on to accommodate increased enrollment
- Close Memorial Elementary School
- NOTE: Middle and High School have sufficient capacity to accommodate projected grade level enrollments from 2019-20 through 2027-28

## Grade Level Alignment

- Grades PK-5 at Bakie Elementary School
- Grades 6-8 at Sanborn Middle School
- Grades 9-12 at Sanborn High School

Grades PK-5 at Bakie Elementary School

| School <br> Year | Projected <br> Enrollment | POC | POC-Projected <br> Enrollment <br> Difference | POC with 10\% <br> Capacity <br> Cushion | POC with 10\% <br> Capacity Cushion <br> -Projected <br> Enrollment <br> Difference |

| $2026-27$ | 544 | 458 | -86 | -80 | 412 |

## OPTION II (Cont'd)

## Option II (Cont'd)

## Advantages:

- With an addition of a minimum of five to seven classrooms, there will be sufficient capacity to accommodate grade level instruction
- PreK-5 configuration facilitates collaboration, coordination, and communication amongst grade level educators
- Eliminates the need to realign school borders to adjust for enrollment changes
- Reduces instances where classroom enrollments might exceed best practice standards
- Newly constructed classroom spaces would meet current standards and codes
- Potential utilization of vacated Memorial facility by Newton municipal and civic organizations

NOTE: Middle and High School have sufficient capacity to accommodate projected grade level enrollments from 2019-20 through 2027-28

Challenges: Each listed below would require additional analysis by the district

- The costs associated with the construction of an addition (inclusive of design, permitting, site development, building cost, etc.)
- The process timeline for the construction of an addition
- Accommodating increased parking, bussing and field space needs
- It is questionable as to whether there is adequate space to accommodate art, music, specialized education, physical education and lunchroom capacity
- Increased travel time for some parents and students
- Expanded school bussing

## OPTION III

## Option IIIA

Description: Close middle school

## Grade Level Alignment

- PK-5 at Memorial Elementary School and PK-5 at Bakie Elementary School
- 6-12 at the Sanborn High School

## OPTION III (Cont'd)

## Option IIIA (Cont'd)

## Advantages:

- Potential utilization of vacated Middle School facility by Newton municipal and civic organizations
- Operational savings due to the closure of the middle school
- Assigned grade 6 and 7 students would have to access to a $21^{\text {st }}$ century facility
- Facilitates collaboration, communication and coordination amongst grades 6-12 educators (for example, mathematics, sciences, etc.)
- Provides opportunities for grade 8 students to participate in some high school programming
- The high school has adequate capacity to accommodate grade configuration
- Decreases student school transitions from three to two

## Challenges:

- Memorial would not have a $10 \%$ capacity cushion until SY '20-21
- Realigning high school spaces to accommodate separate middle and high school programming sometimes requires that:
- Fewer classrooms may be designated for prep periods, as compared to the present schedule individual classroom educators may have less frequent access to their classrooms during prep periods
- Class size minimums may be increased (NESDEC has noted that class size minimums for certain electives and AP classes are often in the 10-12 student range.) In order to address class size minimum issues, some districts implement the following:
o Some electives are offered in alternate years,
o Upper level World languages combined - Example French 3-4, Spanish 3-4
o On-line courses could be offered for minimally enrolled courses, for example, AP or engineering/technology offerings

## OPTION III (Cont’d)

## Option IIIA (Cont'd)

Challenges:

- Possible need to relocate central office spaces to another facility to accommodate middle school and high school instructional spaces
- Requires advanced planning and organization of shared high school instructional spaces, for example, gymnasium, nurse's office, art and music spaces, library, etc.
- Need to adjust High School transportation routes to accommodate Grades 6-8 at the High School

## OPTION III (Cont'd)

## Option IIIB

| 2023-24 | 685 | 1,056 | 371 | 950 | 265 |
| 2024-25 | 651 | 1,056 | 405 | 950 | 299 |
| 2025-26 | 629 | 1,056 | 427 | 950 | 321 |
| 2026-27 | 607 | 1,056 | 449 | 950 | 343 |
| 2027-28 | 570 | 1,056 | 486 | 950 | 380 |

## OPTION III (Cont'd)

## Option IIIB (Cont'd)

## Advantages:

- Potential utilization of vacated Middle School facility by Newton municipal and civic organizations
- Operational savings due to the closure of the middle school
- Assigned grade 7 and 8 students would have to access to a $21^{\text {st }}$ century facility
- Facilitates collaboration, communication and coordination amongst grades 7-12 educators (for example, mathematics, sciences, etc.)
- Provides opportunities for grade 8 students to participate in some high school programming
- The high school has adequate capacity to accommodate grade configuration

## Challenges:

- Beginning in SY '21-22 through SY '27-28, Memorial would have sufficient capacity to accommodate projected enrollments (note: Memorial would not have a 10\% capacity cushion until SY '26-27); however, if enrollments should exceed capacity due to unexpected growth in the community or, if a particular grade level enrollment should exceed capacity, it may be necessary to realign school boundaries and reassign some Memorial students to Bakie.
- Reassigning elementary spaces to adequately accommodate grade 6 (art, music, special education, physical education and lunchroom capacity; this would require advance planning)
- Potential need to adjust elementary transportation routes in the event that some Memorial students are assigned to Bakie
- Accommodating grade 6 at the elementary school and grades 7-8 at the high school will need advance planning
- Need to realign school boundaries and transportation routes - including moving Grade 6 to the elementary and Grades 7-8 to the High School

## OPTION III (Cont'd)

## Option IIIB (Cont'd)

## Challenges:

- Realigning high school spaces to accommodate separate middle and high school programming sometimes requires that:
- Fewer classrooms may be designated for prep periods, as compared to the present schedule individual classroom educators may have less frequent access to their classrooms during prep periods
- Class size minimums may be increased (NESDEC has noted that class size minimums for certain electives and AP classes are often in the 10-12 student range.) In order to address class size minimum issues, some districts implement the following:
o Some electives are offered in alternate years,
o Upper level World languages combined - Example French 3-4, Spanish 3-4
o On-line courses could be offered for minimally enrolled courses, for example, AP or engineering/technology offerings
- Possible need to relocate central office spaces to another facility to accommodate middle school and high school instructional spaces
- Requires advanced planning and organization of shared high school instructional spaces, for example, gymnasium, nurse's office, art and music spaces, library, etc.

|  | 2027-28 | 570 | 1,056 | 486 | 950 | 380 |

## Advantages:

- Potential utilization of vacated Middle School facility by Newton municipal and civic organizations
- Operational savings due to the closure of the middle school
- Assigned grades 7 and 8 students would have to access to a 21 st century facility
- Facilitates collaboration, communication and coordination amongst all grade level educators
- Provides opportunities for grade 8 students to participate in some high school programming
- The high school has adequate capacity to accommodate grade configuration

## OPTION III (Cont'd)

## Option IIID

## Challenges:

- For the first school year, there is not sufficient capacity at Bakie for this option; for the first three years, there is not sufficient $10 \%$ cushion capacity at Bakie
- Need to realign all school boundaries and transportation routes for all schools
- Realigning high school spaces to accommodate separate middle and high school programming sometimes requires that:
- Fewer classrooms may be designated for prep periods, as compared to the present schedule - individual classroom educators may have less frequent access to their classrooms during prep periods
- Class size minimums may be increased (NESDEC has noted that class size minimums for certain electives and AP classes are often in the 10-12 student range.) In order to address class size minimum issues, some districts implement the following:
o Some electives are offered in alternate years,
o Upper level World languages combined - Example French 3-4, Spanish 3-4
o On-line courses could be offered for minimally enrolled courses, for example, AP or engineering/technology offerings
- Possible need to relocate central office spaces to another facility to accommodate middle school and high school instructional spaces
- Requires advanced planning and organization of shared high school instructional spaces, for example, gymnasium, nurse's office, art and music spaces, library, etc.

## OPTION IV

## Option IV

Description: Central Office moves to one wing in the high school

## Advantages:

- Consolidation of central office spaces to one area, with a separate entrance, provides opportunities increased collaboration, communication, and coordination amongst central office staff
- Provides more contiguous instructional spaces for students and staff

## Challenges:

- Potential cost for converting classroom space to office space
- Reallocating high school instructional spaces to accommodate the central office in one contiguous location

## SCHOOL BOARD QUESTIONS
