## **HOMEWORK**

### Statement of Purpose

The purpose of this policy is to establish the position of the Sanborn Regional School Board regarding homework.

### Statement of Policy

To further the Sanborn Regional School District's goal of developing and nurturing independent learners, we believe that homework in its myriad configurations is essential. We believe that working outside the classroom and school day develops responsibility, fosters self-confidence, and reinforces the educational process. From the earliest grades, students can begin to experience the benefits and applications of independent learning. Throughout a student's career in the Sanborn Regional School District, homework will be an integral part of the high expectations held for all students.

For maximum benefit, homework requires cooperation, participation and communication among teachers, parents and students. In order to clarify the appropriate roles of each party, the following guidelines have been developed.

Related Policy: IKB-R

Effective: June 15, 1988

Revised: October 15, 2008
